OUT PRICES OF
TAXI SERVICE

Chicago, March 31—A light taxi service on the European system, which will cut present fares in half will be installed in Chicago at once, it was announced today.

A five passenger car now renting at \$4 an hour will have to compete with a smaller and less luxurious one renting at \$2, and motor rates will be correspondingly reduced.

VITAL IMPORTANCE IS
ATTACHED TO BATTLE

London, March 31—The battle of the Carpathian passes now into the bombardment of the Danube in political possibilities.

German experts assert that the efforts being made by Russia are of such vital importance politically that the supreme command of the Teutonic allies is justified in exerting every effort to check the invader there.

According to this view of the situation a sudden and dramatic influx of Moscovite hosts through the Carpathians into Hungary might stir the Balkan nations to action long before the tedious at-

tack of the allied fleet on the Dardanelles attains any thing approaching a definite result.

Petrograd has officially warned the Russian people not to expect an early capitulation of Constantinople.

There are no signs, however, that the allied fleet has given up the attack, as battle-ships are again shelling the outer defenses of the Straits, while the Russian assault on the Bosphorus has merely been interrupted by a thick fog.

On the western front the Germans are reported to be giving up their plans for breaking through

the defenses of the allies near the coast along the Yser. They are making a new effort along the fortified Flanders-Tournai border by bombarding the fortress of Verdun.

Internally, England is still concerned over the drink situation.

The Liverpool dockers show no indications of receding from their demands.

Commercial bodies are coming forward with offers to back the government in drastic action against the drink evil, while the liquor interests are beginning to express fear of severe government regulations.

2 MORE STEAMERS
SUBMARINE VICTIMS

Cardiff, Wales, March 31—The Cardiff Echo declares that the British steamer Crown of Castile has been torpedoed and sunk off the Sicily islands.

London, March 31—The Ellerman line steamer Flaminian with general cargo from Glasgow to Capetown was sunk off the Sicily islands, Monday, March 20, by the German submarine U-28.

The Flaminian sighted the U-28 at 1:15 o'clock Monday afternoon.

The crew at once appeared to lower the boats and at the same time the vessel was sent ahead at full speed. The submarine easily overhauled her, however and fired three shots, signaling her to stop. The Flaminian was stopped and the crew abandoning all personal belongings got off in small boats. The submarine then fired ten shots at the steamer. These appeared to be ineffective and accordingly, a torpedo was discharged. This sent the Flaminian to the bottom.

Appointments in the five most populous counties, were delayed today pending the outcome of factional fights within the local party organizations in these counties.

**Action Follows Killing
Of Beitler Measure**

The wholesale dismissal of district assessors follows the killing last night by the house of the Beitler bill, which would have made county auditors supervise the tax assessment work this year. The salaries of the district assessors range from \$1,200 in the smaller counties to \$5,000 in the larger ones.

The state tax commission met at 8 o'clock this morning and in compliance with the order of Governor Willis removed from office district assessors of various counties of the state. These assessors will hold their positions until their successors are appointed and qualified.

The commission excused A. H. Peckinpah, the Democratic member, from taking part in the election, voting being done by the two Republican members, J. H. McFerrier and Jas. Boyle. After acting they notified the governor of what they had done.

New Assessors Will Confer With Commission

The newly appointed assessors will be summoned to Columbus probably tomorrow for conference with the commission with regard to their duties. Attorney General Turner has been asked to draw up a new form of bond for the newly appointed assessors.

Former Congressman John J. Whittier of Canton; E. A. Crawford and D. S. Crammer, of Columbus, and other acknowledged leaders of the so-called "Ten Democracy League" were callers at the governor's office this morning and it was the impression here that their organization was considered in making the appointments.

The executive offices were thronged with members of the legislature and politicians this morning before the appointments were announced. They eagerly scanned the lists as they were given out.

WOULD LIMIT SESSION OF THE
LEGISLATURE TO SIXTY DAYS

Columbus, March 31—Ohio people may have a chance next fall to vote on a constitutional amendment limiting the length of all sessions of the legislature to sixty days.

The house committee on constitutional amendments today reported the Hite resolution proposing the submission of such an amendment, when Representative Hite of Perry, the author, went before the committee and demanded action.

"There is no reason," he said, "why the entire work of any legislature can not be done in two months. There is no sense in such dilly dallying as the legislature usually does."

HOLD MAN ON CHARGE
OF SETTING FIRE TO
LINER LA TOURNAINE

Washington, March 31—Search of state department records today revealed that Raymond Swoboda made application for an American passport in New York on February 26. Swoboda gave his residence as San Francisco.

The state department today forwarded what information that it has to the department of justice for investigation.

Paris, March 31—Raymond Swoboda, one of the passengers who is conducting the inquiry into the steamer fire, has established, it is said, the fact that the blaze aboard the Tournaine must have been caused by the explosion of some detonating device. Statements made by passengers and members of the crew support this theory. The explosion was sufficiently violent to wrench loose the doors of cabins nearby.

The authorities believe the explosive had been placed with criminal intent in a trunk which was stored with the baggage of first class passengers in No. 2 hold.

REVOLUTION

Simla, India, March 31—Via London—A revolt of 10,000 tribesmen has resulted in a battle with government troops in which the tribesmen were repelled. The official statement follows:

"A subsequent reconnaissance showed no trace of the band."

American
Note Sent
England

Washington, March 31—Ambassador Page at London had before him today the American note to Great Britain regarding the British order in council against commerce to and from Germany. It was expected that the American would present the note to the British foreign office today, when it will be made public simultaneously both in London and in Washington.

It is known that the American government stands firmly for its right to carry on legitimate trade with neutral countries even though they be contiguous to the warring nations.

"PINS WOULDN'T FALL," IS BOWLERS ONLY EXCUSE

Portsmouth's crack bowling team, minus two of its members, rounded in at noon Wednesday from Peoria, Ills., where it made such a sorrowful showing in the national bowling tournament last Sunday and Monday. No excuses were offered by the boys as they alighted from the N. & W. train, for their poor showing, one of them merely remarking that "for some reason, the pins refused to fall."

About the only consolation they had out of the trip was that some of the best bowlers in the country fell down woefully on the same alleys that the local team rolled its five-men event. It was plainly evident, however, that their return was a far different event than they had pictured when they left home last Saturday brimming over with high hopes of success.

Those who returned home Wednesday noon were Fred and Hyron Preddiger, Charles Wilson and William Barron. James Wansell left his companions yesterday morning in Chicago, and came home by way of Cincinnati, while Frank W. Sheridan said good-bye to his teammates at Mooseheart, Ill., and left for a short visit with a relative near there before returning home.

About the only prize money that will come to Portsmouth will be to William Barron on his score in singles (63), which is thought, will net him about \$35. His score of 279 in his third game was the second highest individual score of the tournament, the highest being 297. It is probable that the score of Barron and B. Preddiger in the two men event, 1116, may net them a small piece of prize money, but it will be small. Had Barron rolled up to his form in this event, they would have made a great showing, as Preddiger made an average of 211 in his three games.

Barron's bowling in the game in which he totalled 279 was al-

most perfect. He started his first frame with a spare, and then struck out every frame until the second ball in the tenth frame, which recorded a split. Nine straight strikes is quite a showing in a tournament game.

Before leaving for home, the team visited the National Moose Home at Mooseheart, Ill., which the members stated was one of the finest institutions of its kind in the world.

Neuralgic Pains

These may be felt in any nerve of the body but are most frequent in the nerves of the head. Neuralgia may be caused by a decayed tooth, eye-strain or a disease of the ear but the most common cause is general debility accompanied by anemia, or thin blood.

For this reason women who work too hard or exercise too much and who do not get sufficient rest, sleep and fresh air, are the most frequent sufferers from neuralgia and gout, which is a neuralgia of the entire body.

Nutrition for the nerves is the correct treatment for neuralgia and the only way to nourish the nerves is through the blood. Dr. Williams' Pink Pills supply to the blood just the elements it needs to increase its capacity to carry nourishment to starved nerves. They have proved helpful in so many cases of neuralgia and certainly that any sufferer from these troubles is fully justified in giving these pills a trial. Dr. Williams' Pink Pills contain no harmful or habit-forming drugs and may be taken for any length of time with perfect safety.

The pamphlet "Diseases of the Nervous System," is free to you if you mention this paper. Address: Dr. De Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

"PINS WOULDN'T FALL," IS BOWLERS ONLY EXCUSE

Portsmouth's crack bowling team, minus two of its members, rounded in at noon Wednesday from Peoria, Ills., where it made such a sorrowful showing in the national bowling tournament last Sunday and Monday. No excuses were offered by the boys as they alighted from the N. & W. train, for their poor showing, one of them merely remarking that "for some reason, the pins refused to fall."

About the only consolation they had out of the trip was that some of the best bowlers in the country fell down woefully on the same alleys that the local team rolled its five-men event. It was plainly evident, however, that their return was a far different event than they had pictured when they left home last Saturday brimming over with high hopes of success.

Those who returned home Wednesday noon were Fred and Byron Prediger, Charles Wilson and William Barron. James Wanless left his companions yesterday morning in Chicago, and came home by way of Cincinnati, while Frank W. Sheridan said good-bye to his teammates at Monsehert, Ill., and left for a short visit with a relative near there before starting home.

About the only prize money that will come to Portsmouth will be to William Barron on his score in singles 631, which, it is thought, will net him about \$35. His score of 279 in his third game was the second highest individual score of the tournament, the highest being 297. It is probable that the score of Barron and Prediger in the two men event, 1116, may net them a small piece of prize money, but it will be small. Had Barron rolled up to his form in this event, they would have made a great showing, as Prediger made an average of 21 in his three games.

Barron's bowling in the game in which he totalled 279 was al-

NEURALGIC PAINS

These may be felt in any nerve of the body but are most frequent in the nerves of the head. Neuralgia may be caused by a decayed tooth, eye-strain or a diseased ear but the most common cause is general debility accompanied by anemia, or thin blood.

For this reason women who work too hard get too much sleep and fresh air, and the most frequent sufferers from neuralgia and sciatica, which is neuralgia of the sciatic nerve.

Nutrition for the nerves—the correct treatment for neuralgia and the only way to nourish the nerves is through the blood. Dr. William's Pink Pills supply to the blood just the elements it needs to increase its capacity to carry nourishment to starved nerves. They have proved helpful in so many cases of neuralgia and sciatica that any sufferer from these troubles is fully justified in giving these pills a trial. Dr. William's Pink Pills contain no harmful or habit-forming drugs and may be taken for any length of time with perfect safety.

The pamphlet "Diseases of the Nervous System," is free to you if you mention this paper. Address: The Dr. William's Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. William's Pink Pills.

A young man brought one of our "Ideal Pocket Saving Banks" with his three days' savings of quarters, dimes, nickels and pennies to our office. We opened it and he had almost \$3.00 which he deposited in his savings bank.

He said, "It is a good thing. If I had not had the bank, I would have spent the money. As it was I shoved the small change into the bank and I saved it."

Mr. Prosch, who was 65 years old, was editor of the Post Intelligencer for several years. Mrs. Prosch was a daughter of General

Morton E. McCarver, founder of the city of Taewon. She was 65 years old.

Miss Denny was the daughter of Arthur A. Denny who founded Seattle in 1851. She was one of the last survivors of the people who landed in Seattle in November of that year. She was 70 years old. Mrs. Beecher was the wife of Captain Herbert F. Beecher, son of the late Henry Ward Beecher, the Brooklyn clergymen. She was 55 years old.

GENIUS OR HORSE SENSE.

"Thirty", the newspaper symbol for "this is the end", has been ticked on the life of W. R. Nelson, newspaper publisher of Kansas City, Missouri. There was not another publisher of his generation that attained single-handed, it may be said, the success in reputation and prosperity won by this man. He wrote his newspapers and he owned them, made them in a city nationally noted as a journalistic burying ground and acquiring them where competitors lost them. The most brilliant writers in the country, the influence of the biggest politicians, the prestige of a majority party, the resources of wealth and interests, were thrown into competition against him, yet, working alone, with scant means, at the beginning, he did not succumb to rivalry. To the contrary he rose steadily trumphant over it. His greatest satisfaction of all must have been to become finally the owner of the very paper upon which the best talent in the country and veritably millions of dollars were applied in an effort to beat him out, and eventually to establish for that paper a field in which it was both reputable and prosperous. Why did he succeed alone, where others in company failed—was it because his was an all-conquering genius on his part, or a total inadequacy in his competitors? Neither we think. It was just because W. R. Nelson was honest and had good, sound horse sense. With him newspaper making was a business, a business that had to be conducted along legitimate and sincere lines. His effort was to build up his paper, his rival publishers had other axes to grind, their purpose was to promote other interests and succeed with other things rather than with the publishing business. The confidence of the people was secured by Nelson's Star because they realized he wanted to build it up by giving them the news fairly and squarely and he had no purpose to exploit them to his own incidental gain away from the paper. A most plain and simple platform, but where there is one W. R. Nelson to appreciate and act upon it there are a thousand would-be rivals who do not.

MOVED TO ACTION.

Learning the exact details and specifications that his prime bunch of legislative lobbyists, lured on by the siren songs of the lobbyists have been treadling the primrose path of dalliance the good young Governor Willis is inexpressibly shocked. Ay, he is stirred out of self-complacent assumption that he is neither sentinel on the watch tower, to warn when danger approaches, nor sage and counselor to point the pitfalls. No; not even yet, a leader dashing and bold to harry and scatter the evil foes that lurk and press about seeking to subdue the hired hands, or throw wrenches into the law's machinery. Moved to action he sits down and writes him a letter in which he soliloquely deplores the scandal brought upon a co-ordinate branch of the state government, calls for a list of lobbyists, registered and unregistered and evicts his own firm, true and honest land will forever hereafter and then some time longer direct the legislative craft. So we have another sensation for a week and a day. At the end of that time some callous political reprobate will whisper into the ear of one young, good and godly governor, that this lobby stuff is hurting the party, and the whole business will sneak away from the public eye just like that little fuser, staged in the house the other day.

Those French officials, who are fighting duels with each other are not as foolish as you might think. A French duel is never deadly; German bullets too often are. So he who enters a duel is sure to live to fight another day, but he who is plugged by a bullet seldom has breath enough left to tell the tale.

Illinois proposes to make it a crime for any candidate for the legislature to plebe himself upon any issue. In other words the Sucker state would make the evil, not the failure to keep a pledge but the malice of it. That's strange considering what experience the state has had with political platforms.

A thing is worth pretty much at what it is held. The governorship of Kentucky doesn't pay much more than day wages, but every other man in the state feels it a life honor has been bestowed on him when his "friends" are considering him for the place.

They tell us the emigration of the Ohio is going to be worth nothing. It is bad, but better to know it now before all the money is spent. We'll not be so much disappointed when it is.

AGAIN AT THE FRONT.

The main trouble seems to be that our good young governor is so good that he expects everybody, even a lobbyist and a legislator to be as good as he is.

The truth will out. West Virginia has been broke for a good many years, but the deluded and foolish people have just been let into the secret.

The time seems near at hand when every Portsmouth will have his own little addition to the city.

Goodbye, but not a sad farewell to March, though for herself we must say her conduct this time was quite circumspect.

The motto of the best steel mills seem to be: Bigger and Better. We can all endorse that.

West Virginia laments that one of its wealthiest coal operators has dropped out of politics. Why?

FOR LITTLE FOLKS SINCE 1890

WHAT ARE YOU LIKE?

What animals are you most like?
Just stop and think of it;
Are you a child whom no one likes
To have around 'em?
And is your temper very quick,
Do you speak stingingly?
If so, I'd say that you are like
A surly Bumble-Bee.

OR

It may be you're the kind of child
That chatters all day through,
Till all your family and your friends
Are tired of hearing ing you.
If when they bug you to be still,
You keep on talking, 1
Would say that you are very like
The chattering Magpie.

New Tax Assessor Expects To Take Charge On Friday

F. B. M. Corson, the new district tax assessor of Scioto county, received a wire Wednesday morning ordering him to report in Columbus at nine o'clock Thursday morning to receive his commission and instructions along the line of his new duties. He will qualify for the office at the same time.

Unless there is a change in the plans, Mr. Corson will take charge of the office on Friday morning. The present incumbent, John R. Hughes, stated Wednesday, that he would have everything in shape a turn over to his successor at that time. The work in the office is up to date, and the office could have been turned over today if desired.

Prior to notice of the appointment, Mr. Hughes had issued instructions to the deputy assessors to report the latter part of this week for their supplies and their instructions for this year's work, which begins next Monday. Mr. Corson stated Wednesday afternoon that the orders will remain unchanged. The rural assessors are to report Friday, and the city assessors Saturday. Mr. Hughes will assist his successor in getting started in every way possible.

No change will be made in the clerical force in the office for the present at least, announced Mr. Corson Wednesday afternoon. He said that the appointment came so sudden that he had not had time to think of assistants, and that the experience of the old clerks would be of great assistance to him in starting the work. The clerks, Miss Minnie Ziegler and Miss Louise Baldwin, have passed the civil service examination, and are supposed to be under the civil service regulations.

John R. Hughes, the retiring assessor was appointed by the State Tax Commission in November, 1913, and the appointment was approved by Governor Cox at once. The term was indefinite. He took office on December 1, 1913, the first district assessor of

men in the city, having lived here for years. For several years he was connected with the Tracy Shoe company on Second street, but retired from the firm recently, since which time he has devoted his entire time to looking after his real estate holdings in this city.

HAS A GOOD INCUBATOR.

George B. Morris, 1408 Seveneenth street, is a firm believer in "Old Trusty," an incubator, which has been the means of putting so many young chickens in his coop.

One of "Old Trusty's" finest batches occurred several days ago, when 165 chicks came to life out of 235 eggs. They are all thoroughly Plymouth Rocks," says Morris.

Used Bad Scales

A county grocer was arraigned before Squire Finney Wednesday on an affidavit, charging him with using condemned scales, preferred by John Zenne, deputy sealer of weights and measures. He pleaded guilty, and was fined \$5 and costs. Zenne claims that he condemned the scales about a year ago.

JURY IN CONDEMNATION SUIT ARE VIEWING SITE

Failure of some of the jurors to report necessitated the rescheduling of a special venue Wednesday morning before the condemnation suits brought by the Ohio Valley Traction company could be started before Judge Beatty in probate court. A jury was finally selected, consisting of Henry L. Cline, city; Emmet Berridge, Green; Fred Essman, New Boston; George Haover, Green; A. Z. Alzam, Madison; Charles Bruden, Ottway; A. V. Richmond, city; James Gre, city; Cread S. Milstead; Walter Newman, Rarden; Albert Adkins, Brush Creek and John Shaler, Clay.

After the jury had been chosen, Judge Beatty ordered a recess until Thursday morning in order

that the jury could view the land in dispute. The members of the jury left on the noon train for Wheelersburg, under the charge of Deputy Sheriff Rome Arthur. From there, they will be driven to the farms involved in the litigation.

An entry, dismissing the action against six defendants were concerned was filed in probate court just before the court convened. The defendants who were dismissed were Namie S. Hudson, N. L. Hudson, Peter Gleim, Barbara E. Gleim, Willard Lamb, Rebeca Lamb and Robert Chavis. The company came to terms with them since the suit was filed.

The three remaining defendants are Dr. T. H. McCann, Mrs. Alice Wolford and J. A. Dever. Mark Crawford represents Dr. McCann, Harry Ball, Mrs. Wolford and Miller and Mickelthwait, Dever. The Ohio Valley Traction company's attorneys are Milner, Miller and Seard.

Have You Catarrh?

Is nasal breathing impaired? Does your voice get hoarse or your throat clogged?

Modern science proves that catarrh is a symptom of poor health; when the system is weakened it is quickly indicated by the flow of secretion from the mucous membrane, and it is necessary to treat the spot with specific vapors because they only irritate the inflamed and delicate tissue.

The best physicians to-day emphasize that you should build your general health with the oil-food in Scott's Emulsion, which contains glycerine to soothe and heal, hypophosphite to strengthen the nerves, and cod liver oil to create rich blood, build strength and vigor. Its nourishing powers will aid nutrition and assimilation and assist nature to check the inflammation and heal the sensitive membranes which are affected.

Scott's Emulsion not only relieves catarrh, but builds you up at the same time. Every druggist has it.

NEW BOSTON

When Contractors Benson and Shepard started work Tuesday morning excavating on Will Kent's 10x20 lot on Gallia pike and Park avenue, a rumor started that the village was to receive a new business block. Kent said Tuesday that he had no intentions of putting up a building at present and that the excavating was only being done to accommodate the contractors who wanted the dirt to sell. The lot will be an ideal site for a business block once the street car line is built on Park and Gallia pike.

The village now has two physicians, Dr. A. V. Hall, of Scioto, and Dr. G. C. McCormick, of Gallia pike.

Miss Lucy McCormick, of Green, Ky., is spending a few days with her brother and sister-in-law Mr. and Mrs. Ray McCormick, of East Grace street. Miss McCormick is a school teacher and recently removed to Grayson with her parents, Mr. and Mrs. Henry C. McCormick.

Chief Bac-Ka-Che

There is an Indian in the Penobscot tribe that was given the name of Chief Bac-Ka-Che, the title of chief being given on account of his being the best dressed Indian in the tribe. Now there are many good dresses in this city and it would be an effort to distinguish who is chief among them but it is a certainty he would be wearing a suit from Hall Bros' store in the Masonic Temple where many men of this community have seemed their outifts for spring. This store is considered foremost among the clothing stores in this city, in fact it is the man's store.

HOME IS TEMPORARY HOSPITAL

The home of Mr. and Mrs. Joseph Walters, of 1652 Sixth street, has temporarily been converted into a hospital as Mrs. Walters and daughter, Edith, and three sons, George, Edward and Charles have been ill with grip since Sunday. They have, however, reached a state of convalescence.

On Sunday Mr. and Mrs. Walters and family drove around the "flag" in their machine. When they reached the West Side they decided not to drive their car down the grade leading to Ferryboat Bone and rather than do this they drove back home by way of Luensville. It is thought this long drive of 50 miles in the cold had much to do with practically the entire family developing the grip shortly after their return home.

nine or thirty years old? And calls a girl the same age an old maid? I can't see any difference in them, can you? I got me a new suit and it is green, but it is a lighter green than I like. I have had it a week today but have never worn it yet. Do you think they will exchange it? Do you think green will be a popular color this spring? Is my writing and spelling good? Thank you for your advise.

PRUDIE.

Men and women are only grown-up boys and girls. I should think they would take your suit back if they didn't order it especially for you or make any alterations in it. However, green is very good this spring, and I do not think you could do any better by exchanging it. You have a very neat hand-writing, but several words in your letter were misspelled.

Dear Dolly.—There is a boy in this town I would like to go with, but he won't pay any attention to me. In fact, none of the boys seem to care for me. Why is this? I am better looking than lots of girls who have steady. How can I make the boys like me?

WALL FLOWER.

Show an interest in the things that interest them; never do or say unkind and spiteful things. Be jolly and friendly without any boldness in your manner; dress neatly and tastefully and you will soon become popular with boys and girls alike.

Dear Dolly.—Please tell me how to get rid of cock-roaches? My pantry is full of them.

MRS. HILLTOP.

Get a powder at the drug store that is manufactured especially to kill roaches. It is the only thing that I know of that will do the work. Do not keep any food on your pantry shelves or any place else that they can get into as food will draw the pests. Dampness is another cause for the appearance of roaches.

Dear Dolly.—What should a girl say when she does not wish to dance with a young man and she hasn't the dance?

BLUE EYES.

She should say, "I am not going to dance this dance, thank you." And then to avoid sitting it out alone, she could go into the dressing room until the dance is over.

TIME is the essence of all things. Every woman that is good for her time makes the most of every day. The woman who employs at the present day for removing wrinkles and beautifying the complexion is more intelligent. The ordinary prepared creams used for this purpose are merely

Help the Stomach
Digest Your Food

When the stomach fails to digest and distribute that which is eaten, the bowels become clogged with a mass of waste and refuse that ferments and generates poisons that are gradually forced into the blood, causing distress and often serious illness.

Most people naturally object to the drastic cathartics and purgative agents that shock the system. A mild, gentle laxative, positive in its effect and that will quickly relieve constipation is Dr. Caldwell's Syrup Pepsin, sold by druggists at fifty cents and one dollar a bottle. It does not grip or cramp but acts easily and pleasantly and is therefore the most satisfactory remedy for children, women and elderly persons. For a free "light" bottle write to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ills.

JOHNSON HAS VERY SMALL HEART

Havana, March 31.—With the battle for the world's heavyweight championship less than one week away—it is set for April 5—Jack Johnson and Jess Willard today began reducing their training routine. Willard was so fit that he virtually laid off and planned no work aside from a walk and run of a few miles at 7 o'clock. The balance of the day was spent in resting and sleeping.

Johnson took some short spells on the road and went through his regular public training in the stadium. In the almost every particular,

the League bought electric fan at Umpire's demand

Frank Newhouse, who formerly umpired in the Pacific Coast league, is the only judge of diamond plays that ever made a league purchase of an electric fan.

Newhouse was offered a berth in the Texas league, President Allen of the circuit was anxious to get him. Newhouse refused to sign up with the League unless they purchased a fan for him.

In explaining to Allen why he wanted the fan, Newhouse said he would set it going at nightime so as to keep the air in the room cool in order that he could get enough sleep.

To get Newhouse the league directors finally had to purchase the electric fan.

TWO NEW MILLS AT THE STEEL PLANT

Following on the heels of the announcement that the Whittaker-Gessner company would erect a 300 by 150 addition to the galvanizing department of their plant in New Boston came the news Wednesday that this firm had begun the installation of a two and three high jobbing mills in their plant, which when completed will be one of the finest mills of the kind in

the country, being right up to the minute in design and equipment.

These two mills when ready for operation by May 15 will give employment to a number of skilled rollers and many of them will no doubt move their families to this city.

These new mills are being built on the site of the old plate mill and the work of as-

sembling them is well underway. The firm has for sometime figuring on carrying out these improvements and with these jobbing mills in running order it will bring their equipment up to a high standard of efficiency it was stated Wednesday. The mills will permit the firm to enter new competitive fields for business.

The work of installing the new mills is being hustled with all possible speed.

AUTOMOBILE HIT TELEPHONE POLE

The automobile of J. H. Myers, superintendent of the open heart department at the steel plant, was badly damaged in a collision with a telephone pole at the foot of Kinney's Lane on the Chillicothe pike about 7 o'clock Tuesday evening. Neither Myers, who was driving, nor Henry T. Suddien, his companion, were injured.

Myers stated Wednesday morning that he misjudged the distance and turned the corner too soon, the left front side striking the post with full force. The wind shield was shattered, the radiator bent out of place, and the hood badly damaged. The machine was traveling at the rate of about twenty-five miles an hour when the collision occurred.

A \$40,000 bond issue proposition for school buildings was recently voted down by the Washington township electors.

POLICE NEWS

Sloan Savage, a foreigner, was fined \$200 and costs in police court Wednesday morning for gun tating. Half of the amount was remitted and Savage paid up \$50, promising to pay the balance in installments.

Miss Emma Fraley, whom Mrs. Jennie Clifford of No. 734 Eleventh street, accused of stealing her purse containing ten dollars, was dismissed for lack of evidence. Mrs. Clifford had been purchasing some linoleum from a neighbor and claimed that as she bent over to pick it up Miss Fraley lifted her pocketbook from an apron pocket.

Litten Lawrence, a West Side farmer, denied that he had stolen a watch belonging to Henry Hatfield, a negro, and judgment was deferred pending further investigation.

The men were in a North End saloon when someone asked what time it was and Hatfield claimed he passed his watch over to Lawrence. When he asked for it a few moments later Lawrence is said to have denied having the timepiece. Hatfield was not altogether certain, during the hearing of the case, that it was Lawrence who had kept the watch for there were several other men present at the time.

Young Woman's Night Tonight

Farewell Services Are Great Success

The "Farewell Services" at the First Baptist church last night was a great feast in helpfulness. The atmosphere seemed to be charged with the presence of the Master as the services proceeded.

We were taken back to Olivet by Dr. T. H. McAfee who spoke on "The Fig Tree Showing Life Again." The Jewish sign of the manifestation of Christ. Dr. McAfee showed very clearly from the scriptures and the past and present history of the Jews that everything pointed to a great revival among that people of a national character. Every sign of

the scripture pointed to the nearness of God's summer as spoken of in Matt. 24:32-35.

At the conclusion of the sermon two persons were saved.

Tonight Dr. McAfee will speak on "Alabaster" or "Jesus in the House of a Leper." After the service Sunday School lesson will be taught by Dr. McAfee "Saul Rejected by the Lord." All are welcome to these services.

This will be young women's night. Every young woman should attend this service. The service

Thursday evening will be at 6:30. There will be baptism on Thursday evening.

CRAIG BOY IS BETTER

Landy Craig, the 12-year-old imbecile boy who was recently entrusted to the care of Mrs. Clegg, Melford for a period of six months, continues showing steady improvement.

The boy amuses himself playing with blocks and other toys and is beginning to understand his new guardian. Whenever he does some little favor for her he smiles and fairly chuckles with satisfaction.

Rev. Magee Preaches At Trinity Revival

Wednesday night was Group "X" to R. night at the Trinity revival, and right well did they respond to the call of duty, as the main floor of the auditorium was well filled. This plan of taking the membership in alphabetical order and making them responsible for the attendance has proven a splendid plan, as there have been good crowds at every meeting. The full choir was present and some splendid stirring songs were rendered, with the congregation coming in for their full share, too. Rev. Martin of the Fourth Street M. E. church, was present and the pastor and people greatly appreciate these kindly visits of the city's ministers.

Tonight will be men's night, and a separate section will be reserved for them. The men made a grand showing last week and they intend to try to surpass that effort. Just before the sermon the chorus choir gave a splendid rendition of that grand old Sunday revival song, "All Hail Emmanuel." They made it ring until you could almost smell the sawdust. Mrs. Norma Hare Young kindly assisted in the chorus work last night and will also be singing next Sunday morning.

Rev. L. L. Magee, who is always welcome at Trinity, was present and preached from Paul 4th chapter, 19th verse: "My God shall supply all your needs, according to His riches in glory, by Christ Jesus." There is no question as to the truthfulness of this statement when the power by which it is accomplished is shown. Our temporary needs often engage our main attention, but St. Paul probably meant mostly our spiritual needs. No tribe has ever been found upon the face of the earth but did not have some conception of a God. The heathen had a momentary creeds to the unknown God, but Paul preached to them of the known God. You and I have a God here. One who can hear our prayers and supply our every need. Prayer is a mighty power. It is the conviction of faith in a higher power. Wherever you may go, to any tribe in this world, you will find a sense of submission to law. You will remember the young man who went to our Savior to know the way of a new life and he pointed to the fact that he kept the law, and Jesus said, "One thing thou lackest.

When he asked for it a few moments later Lawrence is said to have denied having the timepiece. In our intricate body the use of S. B. S. for the blood is almost remarkable.

We highly realize our glandular system. It may be that you have no glandular trouble, but a person may get a disease, germs gets into it, there is a bad condition prevailing. It becomes a bad condition, a disease, and it is often a source of constant misery if not checked.

Many of the most extraordinary forms of torture begin with the swelling of a tiny gland, a gland that is obscure, but it is S. B. S. that speeds up the circulation of the blood, to prevent such epithelial. Or if they have already started, S. S. will put them in such a state of health as to overcome and render them incapable of further trouble. It is a great medicine for the blood, just as it is in wealth of the meat, fats, gristle and sinews of our daily food.

Almost everyone knows that S. B. S. and Sulphur, properly compounded, brings back the natural color and luster to the hair when failed, streaked or gray; also ends dandruff, itching scalp and stops falling hair.

Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wright's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You damp a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Look years younger! Try Grandma's recipe of Sage and Sulphur and nobody will know.

"Employees and employers alike joined in the speechmaking. "Mr. Newcomb believed with such a spirit of loyalty and enthusiastic co-operation, the firm would enjoy its most prosperous year in 1915. Mr. Anderson announced that the store would continue to close on Saturday evenings at six o'clock as has been the custom in recent months."

The chief of police has asked Contractor Frank Seymour to have his men exercise care in not overloading wagons with sand and gravel between his plant and the Cecil Miller addition. The city street cleaning department, it is claimed, has been kept busy sweeping up material spilled from the wagons.

GOES DOWN FIRE ESCAPE WHEN POLICE MAKE RAID

A young man giving the name of Stephen Ward, 26, who is said she recently was located at 1616 W. Main, Ashland, Ky., made a sensational escape from police, who surrounded the Bieggs house Tuesday night.

Chief Ward denied that Ward had brought her here with a view to living off her earnings, saying that Ward had gone back to Ashland Sunday to secure his pay checks. She admitted, though, that she had taken a number of passengers ride down town with young men without Ward's knowledge.

Officer Roy Moore had been attracted to the couple, and it was upon his observations that the raid was planned. The young woman will appear before Judge Frank C. Hardin, Jr., on Tuesday to answer some questions.

Ward's fair companion induced the door and admitted the raiding party consisting of Capt. Frank Cooper and Officer Moore to the Bieggs home.

They will be kept out over Sunday as there is no hurry in getting a sufficient number of signatures for Scioto county.

THE SUR U-29

CAPTAIN WEDDIGEN

Submarine U-29, of the German navy, has at last been officially pronounced out of the running. No craft in history, size not considered, has done the same damage in naval warfare. Acknowledgment having been made by the German admiralty of the loss of the 29, British and French ships "will no doubt" bring the more easily. To Captain Weddigen, of the 29, and a crew of daring sailors the wonderful record of the submarine was due.

POSSES IN THREE STATES HUNT FOR BANK ROBBERS

Kansas City, Mo., March 31--Posses in the neighborhood of Stroud and Chandler, Okla., have not been the only seekers of bank robbers since Henry Starr and his band robed Stroud, robbed two banks and engaged in a revolver fight with citizens last Saturday. Nearly every town in Kansas, Oklahoma, and western Missouri has been aroused by the band robbers and many posses have been hunting them for the last three days.

This interest increased today when Oklahoma officers announced that the robbers probably had escaped to southwest Missouri.

HOLD MAN ON CHARGE OF SETTING FIRE TO LINER LA TOURNAINE

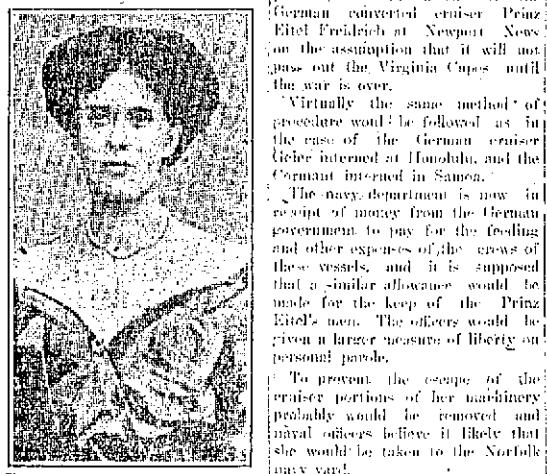

Paris, March 31--Raymond Swohod, one of the passengers aboard the French line steamer Touraine, which was imperiled by a fire at sea on March 6, has been arrested charged with setting fire to the vessel, according to the Matin.

Swohod, the paper asserts, is suspected of having "close relations with the enemy," and correspondence found in his rooms is said to indicate he had been engaged with the "secret" subversives up the Touraine. He has been taken to Paris.

WILL SPARE NO COST IN RAISING OF SUB-4 TO WATER'S SURFACE

Washington, March 31--Secretary Daniels was determined today to raise the sunken submarine E-1 in Honolulu harbor, no matter what the operation may cost. He wants to learn the cause of the accident so as to avoid similar disasters in the future.

This was made known after advice had been received from Rear Admiral Albion at Honolulu, which said that preparations were being made to raise the submarine by the pontoon method.

The fact that the Admiral reported the submarine evidently was water-logged and therefore too heavy to be raised by the equipment previously employed banished the hopes of officials that any of her crew might be found alive.

Secretary Daniels announced in the event of the failure of efforts to raise the E-1, the submarine would be scuttled in 100 feet of water.

The city has been scoured to obtain 700 feet of reinforced hose to be used for air lines.

Twenty-one sailors have been detailed at the navy dock for the ill-fated crew of the E-1.

He said there was no truth in reports that he was dissatisfied with the work of naval authorities at Honolulu. On the contrary, the secretary said that they were doing admirably.

Honolulu, March 31--Gaffers attached to a heavy object, believed to be the lost submarine E-1, parted late yesterday and work was suspended for the night.

The spot was carefully marked and it was announced another attempt would be made today to grapple the object.

The huge diving tank which engineers have been hastily constructing was completed last night. It was submerged in 40 feet and was left in the harbor until morning in order to test its stability.

The city has been scoured to obtain 700 feet of reinforced hose to be used for air lines.

Twenty-one sailors have been detailed at the navy dock for the ill-fated crew of the E-1.

American Note Sent England

Washington, D. C., March 31--Though prepared for another course, many officials already are planning for internment of the German converted cruiser Prinz Eitel Friedrich at Newport News on the assumption that it will not pass out the Virginia Capes until the war is over.

Virtually the same method of procedure would be followed as in the case of the German cruiser Eiche interned at Honolulu and the German interned in Samoa.

The navy department is now awaiting word from the German government to pay for the feeding and other expenses of the crews of these vessels, and it is supposed that a similar allowance would be made for the keep of the Prinz Eitel's men. The officers would be given a larger measure of liberty on personal parole.

To prevent the escape of the cruiser portions of her machinery probably would be removed and naval officers believe it likely that she would be taken to the Norfolk navy yard.

If the ship should be kept at her dock at Newport News a revenue cutter might be placed on guard to prevent her being interfered with.

The confederate cruiser Florida, which was recalled, was renamed by a Union merchant vessel as she lay in a bay in the harbor of Rio de Janeiro during the civil war.

Tessie, who played third base here the latter part of last year, probably will be utility infielder.

FOUR DROWNED IN AUTO ACCIDENT

Seattle, Wash., March 31--Bodies of the four persons drowned in the Duwamish river last night when an automobile ran off a bridge ten miles south of this city, were brought here today for burial. Those drowned were Mr. and Mrs. Thomas W. Prosch, Miss Margaret L. Denny and Mrs. Margaret P. Beecher.

Mr. Prosch, who was 65 years old, was editor of the Post Intelligencer for several years. Mrs. Prosch was a daughter of General

Morris E. McCarver, founder of the city of Tacoma. She was 65 years old.

Miss Denny was the daughter of Arthur A. Denny who founded Seattle in 1851. She was one of the last survivors of the people who landed in Seattle in November of that year. She was 70 years old. Mrs. Beecher was the wife of Captain Herbert F. Beecher, son of the late Henry Ward Beecher, the Brooklyn clergyman. She was 55 years old.

18,000 AUSTRIANS LOST IN BATTLE

Geneva, (Via-Paris), Mar. 31--Austrian losses in Bihac Valley and the Province of Bereg (northeast Hungary) on the day of March 28, are estimated at 18,000 according to dispatches received.

These losses state that a column of 1,000 Austrians were annihilated in less than an hour during a desperate action in Bereg Province, six miles north of Versecze.

Austrian troops in this territory are reported to be demoralized as the result of their enormous losses.

JOHNSON HAS VERY SMALL HEART

Havana, March 31.—WITH the battle afternoon, both men say that the off-hand conditions of Havana have helped the world's heavyweight champion ship less than one week away—it is set for April 5.—Jack Johnson and Jess Willard today began reducing their training routine. Willard was so fit that he virtually laid off and planned no work aside from a walk and run of a few miles at 7 o'clock. The balance of the day was spent in reading and sleeping.

Johnson took some short sprints on the road and went through his regular public training in the stadium. In the almost every participant.

Ten Regulars Sign Contracts

Manager Gray of the Lexington club announced Thursday that he intends to begin training about the middle of April. So far, no regulars have obtained their names to full contracts. Six regulars have also been signed. The regulars are: Watty, Blackwell, McClellan, Schaefer, McEvoy, Cain, Hanna, Kellog, Black and Hart. The managers of the Lexington club are preparing to do a great amount of improving on the Lexington Park grounds. This improvement will be completed before May 12, the opening of the season.

PLAYERS SOLD

Port Wayne, Ind., March 31.—Catcher Harry Martin and pitcher Frank Nease, members of last year's local Central League baseball club have been sold to Wheeling. Martin managed the Port Wayne team last year.

LEAGUE BOUGHT ELECTRIC FAN AT UMPIRE'S DEMAND

Frank Newhouse, who formerly umpired in the Pacific Coast League, is the only judge of diamond play that ever made a league purchase an electric fan.

Newhouse was offered a berth in the Texas league, President Allen of the circuit was anxious to get him. Newhouse refused to sign up with the league unless they purchased a fan for him.

In explaining to Allen why he wanted the fan, Newhouse said he would set it going at nightime so as to keep the air in the room cool in order that he could get enough sleep.

To get Newhouse the league directors finally had to purchase the electric fan.

Couch Rice of Columbia was the first to start his men in training for the Poughkeepsie regatta next June. Candidates for this year's crew have been working out at Edgewater, N. J., since early last week. Only two members of last year's championship crew—Sanborn and Bratton—are available this season.

Pete Childs Has Refrid

Chillicothe, March 31.—Portsmouth has yet to choose a manager for the year, but the choice is said to lie between Jimmy Edwards, who handled the team until last year and Gus Spencer. Last year's leader of the Chillicothe polo club has announced his retirement from the game.

In explaining to Allen why he wanted the fan, Newhouse said he would set it going at nightime so as to keep the air in the room cool in order that he could get enough sleep.

FRED HUNTER IS SOLD

Fred Hunter, who played first base for the Minneapolis A. A. team last year has been sold to the Ft. He is in fine shape and will leave Saturday to join the Ft. Worth team.

Matt Brock and Johnny Thrift are to be matched for an April night in Akron.

Sheehan To Be Released

The value—or lack of value—of the minor league records is conclusively demonstrated by the fact that the Reds will probably keep Joe Wagner and release Tommy Sheehan. There have been four fielders of the Sheehan race in recent baseball records and all four named Thompson. Our paper Sheehan makes Wagner look like a dried apple. This is how they stacked up in 1911 performance:

GENIUS OR HORSE SENSE.

"Thirty", the newspaper symbol for "this is the end", has been ticked on the life of W. R. Nelson, newspaper publisher of Kansas City, Missouri. There was not another publisher of his generation that attained single-handed, it may be said, the success in reputation and prosperity won by this man. He made his newspapers and he owned them, made them in a city nationally noted as a journalistic burying ground and requiring them where competitors lost them. The most brilliant writers in the country, the influence of the biggest politicians, the prestige of a majority party, the resources of wealth and interests, were thrown into competition against him, yet, working alone, with scant means, at the beginning, he did not succumb to rivalry. To the contrary he rose steadily triumphing over it. His greatest satisfaction of all must have been to become finally the owner of the very paper upon which the best talent in the country and veritably millions of dollars were applied in an effort to beat him out, and even atly to establish for that paper a field in which it was both reputable and prosperous. Why did he succeed alone, where others in company failed—it was because his was an all-conquering genius on his part, or a total inadequacy in his competitors? Neither we think. It was just because W. R. Nelson was honest and had good, sound horse sense. With him newspaper making was a business, a business that had to be conducted along legitimate and sincere lines. His effort was to build up his paper, his rival publishers had other axes to grind, their purpose was to promote other interests and succeed with other things rather than with the publishing business. The confidence of the people was secured by Nelson's Star because they realized he wanted to build it up by giving them the news fairly and squarely and he had no purpose to exploit them to his own incidental gain away from the paper. A most plain and simple platform, but where there is one W. R. Nelson to appreciate and act upon it there are a thousand would-be rivals who do not.

MOVED TO ACTION.

Learning the exact details and specifications that his prime bunch of legislative lobsters, fired on by the siren songs of the lobbyists have been treading the primrose path of dalliance the good young Governor Wilder is inexpressibly shocked. As he is stirred out of self-complacent assumption that he is neither sentinel on the watch tower, to warn when danger approaches, nor sage and counsellor to point the pitfalls. No; not even yet, a leader dashing and bold to harry and scatter the evil foes that lurk and press about seeking to subdue the hired hands, or throw wrenches into the law's machinery. Moved to action he sits down and writes him a letter in which he sobbingly deplores the scandal brought upon the co-ordinate branch of the state government, calls for a list of lobbyists, registered and unregistered and avows his own firm, true and honest hand will forever hereafter and then some time longer direct the legislative craft. So we have another sensation for a week and a day. At the end of that time some envious political reprobate will whisper into the ear of our young, good and godly governor, that this lobby stuff is hurting the party, and the whole business will sneak away from the public eye just like that little *jezec*, stayed in the house the other day.

Those French officials, who are fighting duels with each other are not as foolish as you might think. A French duel is never deadly; German duels too often are. So he who enters a duel is sure to live to fight another day, but he who is plucked by a bullet seldom has bread; enough left to tell the tale.

Illinois proposes to make it a crime for any candidate for the legislature to pledge himself upon any issue. In other words the Sucker state would make the evil, not the failure to keep a pledge but the making of it. That's strange considering what experience the state has had with political platforms.

A thing is worth pretty much at what it is held. The governorship of Kentucky doesn't pay much more than day wages, but every other man in the state feels a life honor has been bestowed on him when his "friends are considering him for the place."

They tell us the catalyzation of the Ohio is going to be worth nothing. It is bad, but better to know it now before all the money is spent. We'll not be so much disappointed when it is.

AGAIN AT THE FRONT.

The main trouble seems to be that our good young governor is so good that he expects everybody, even a lobbyist and a legislator to be as good as he is.

The truth will out. West Virginia has been broke for a good many years, but the deluded and foolish people have just been let into the secret.

The time seems near at hand when every Portsmouthian will have his own little addition to the city.

TWO NEW MILLS AT THE STEEL PLANT

Following on the heels of the announcement that the Whittaker-Glessner company would erect a 300 by 150 addition to the galvanizing department of their plant in New Boston came the news Wednesday that this firm had begun the installation of a two and three high jobbing mills in their plant, which when completed will be one of the finest mills of the kind in

the country, being right up to the minute in design and equipment.

These two mills when ready for operation by May 16 will give employment to a number of skilled rollers and many of them will no doubt move their families to this city.

These new mills are being built on the site of the old plate mill and the work of as-

ssembling them is well underway. The firm has for sometime figuring on carrying out these improvements and with these jobbing mills in running order it will bring their equipment up to a high standard of efficiency it was stated Wednesday. The mills will permit the firm to enter new competitive fields for business.

The work of installing the new mills is being hastened with all possible speed.

GOES DOWN FIRE ESCAPE WHEN POLICE MAKE RAID

Lost Big Contract By Only \$680.00

A young man giving the name of Wilber Ward, aged 23, who is said to be from Ashland, Ky., made a sensational escape from police, who raided the Biggs' house Tuesday at midnight.

Surprised in a room with a young woman whom he had registered as his wife under the name of Beulah Ward, but who says her right name is Laura Chaffins, aged 18 years, of Lawrence county, Ky., Ward gathered up some of his duds and going through a window descended a fire escape, leaping fully 15 feet to the sidewalk below and escaping down Market street in the direction of the river.

Ward's fair companion unlocked the door and admitted the raiding party, consisting of Capt. Grant Cooper and Officers Moore, Guinck and Hardigree. It was found that Ward in his haste had left behind his hat and coat of his two coats. He had had barely time to slip on his low-cut shirt.

The girl, who is prettily dressed, was taken to the safety prison and locked up. She admitted having come here with Ward last Saturday and of having lived with him and his wife in the Biggs' house ever since. She had met him, she said, at Tom's Creek, Va. They registered under "Miller, W. Va." She said she formerly was located at Huntington, W. Va.

The young woman, when questioned by Chief McCarty, denied that Ward had brought her here with a view to living off her earnings, saying that Ward had gone back to Ashland Sunday to secure his pay check. She admitted, though, that she had taken a number of automobile rides about town with young men without Ward's knowledge.

Officer Roy Moore had been attracted to the couple, and it was upon his observations that the raid was planned. The young woman will either be deported back to Kentucky or sent to some Rescue home. She expresses a willingness to abide by the decision of the police authorities.

AUTOMOBILE HIT TELEPHONE POLE

The automobile of J. H. Myers, superintendent of the open heart department at the steel plant, was badly damaged in a collision with a telephone pole at the foot of Kinney's Lane, on the Chillicothe pike about 7 o'clock Tuesday evening. Neither Myers, who was driving, nor Henry T. Snadden, his companion, were injured. Myers stated Wednesday morning that he misjudged the distance and turned the corner too soon, the left front tire striking the post with full force. The wind shield was shattered, the radiator bent out of place, and the hood badly damaged. The machine was traveling at the rate of about twenty-five miles an hour when the collision occurred. Though badly damaged, it was driven away on its own power to a local garage for repairs.

Announcement was made at the meeting Tuesday evening that William Barron's chances of landing an office in the Grand Lodge at the national convention in June were exceedingly rosy. His candidacy is being favorably received by high officials in the order and members all over the country, and the indications are that he will come under the wire a winner.

A detailed report of the visit of the bowling team from this city to Moonheart, the national home of the Moose Lodge, is expected at the next meeting. The members of the team, the majority of whom are from Monroe, stopped off there on their way home from Peoria.

A SAFE HAZARD

Sometimes it doesn't matter who gets the longest bit of wishbone! For if she wins, he will win; and if she loses, he will win. A game much safer to play than poker, the stake is so alluring. And it's so sure! Like playing tag with Cupid, you know all the while "You're It!"
